Continuation of 3. NOTE: while the amendment of claim 70 to recite the limitation of a sensor immersed in a solution in a reaction chamber does appear to overcome the rejections of record, further search and consideration would be required to determine the patentability of the claims over the prior art.

Continuation of 11. does NOT place the application in condition for allowance because: the arguments appear to be directed toward the amended claims which have not been entered, and the unamended claims have been rejected for reasons stated in the prior office action.
